Please require labeling
on genetically engineered
foods & packaged products
that contain genetically
engineered foods! We

Please follow Europe's lead!
Tell us what is in our food!

DRAKE ENVIRONMENTAL ACTION LEAGUE

Because of so much
genetic engineering in
our food, people are developing
food and environmental allergies.
My mother can no longer eat
any food which has been tampered
with, it causes her severe pain. It
would be nice to know what products
on the shelves have been genetically
engineered. - Jana Mot
